

Steve Ison, CEO and Founder of Rebecca Creek Distillery has always savoured fine spirits. He decided a few years back to see what he bring to this niche in the Texas Market.

It all started with Enchanted Rock Vodka, our 100% Sweet Texas Yellow Corn is Distilled for over 14 hours in a traditional copper pot still then chill filtered for 12 hours. Right out of the gate Enchanted Rock Vodka ROCKED our world. It was widely received as the newest and highest quality Texas Vodka available. Not long after its release Enchanted Rock Vodka was awarded a Platinum Medal at the 2011 International Sprits Competition, which in turn put Rebecca Creek Distillery on the map as the FASTEST growing craft distillery in North America. Enchanted Rock Vodka was titled the #1 Selling New Liquor Brand in the State of Texas 2011..

Rebecca Creek Whiskey, born in the Texas Hill Country with a flavor that is a smooth as the day is long. Rebecca Creek Fine Texas Whiskey is the first Whiskey ever named after a woman and has already taken two gold medals in two separate U.S. Spirit Competitions. The first Spirit Whiskey to be released in the State of Texas has proven to be long awaited. Texans have spoken! Rebecca Creek Whiskey promises to be one of the highest selling Texas brands in the state for 2012.
